## Surfinia® Sumo Glacial Pink Petunia

Petunia 'Sunsurf Yohaiha'

Height: 10 inches Spread: 4 feet Spacing: 3 feet Sunlight: 0

Hardiness Zone: (annual) Group/Class: Surfinia Series

### **Description:**

Fast-growing plants have a vigorous cascading, and spreading habit, blooms continuously and hold up well in wind, rain and summer heat. Easy to grow, maintain and are self-cleaning. Ideal in hanging baskets, window boxes and landscaping.

#### **Ornamental Features**

Surfinia Sumo Glacial Pink Petunia is covered in stunning shell pink trumpet-shaped flowers with white overtones. deep purple throats and a hot pink ring at the ends of the stems from mid spring to mid fall. Its pointy leaves remain green in color throughout the season.

### **Landscape Attributes**

Surfinia Sumo Glacial Pink Petunia is a dense herbaceous annual with a trailing habit of growth, eventually spilling over the edges of hanging baskets and containers. Its medium texture blends into the garden, but can always be balanced by a couple of finer or coarser plants for an effective composition.

## Better Plants. Better Advice. Better Results.

This plant will require occasional maintenance and upkeep. Trim off the flower heads after they fade and die to encourage more blooms late into the season. It is a good choice for attracting butterflies and hummingbirds to your yard, but is not particularly attractive to deer who tend to leave it alone in favor of tastier treats. It has no significant negative characteristics.

Surfinia Sumo Glacial Pink Petunia is recommended for the following landscape applications;

- Mass Planting
- Border Edging
- General Garden Use
- Groundcover
- Container Planting
- Hanging Baskets

#### **Planting & Growing**

Surfinia Sumo Glacial Pink Petunia will grow to be about 10 inches tall at maturity, with a spread of 4 feet. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 3 feet apart. Its foliage tends to remain low and dense right to the ground. This fast-growing annual will normally live for one full growing season, needing replacement the following year.

This plant should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It may require supplemental watering during periods of drought or extended heat. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid. It can be propagated by cuttings; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Surfinia Sumo Glacial Pink Petunia is a fine choice for the garden, but it is also a good selection for planting in outdoor containers and hanging baskets. Because of its trailing habit of growth, it is ideally suited for use as a 'spiller' in the 'spiller-thriller-filler' container combination; plant it near the edges where it can spill gracefully over the pot. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
