## Magnificent Yesterday Today And Tomorrow

*Brunfelsia magnifica*

Height: 4 feet

Spread: 4 feet

Sunlight: ☉ ●

Hardiness Zone: (annual)

Other Names: Magnificent Brunfelsia

### Description:

This selection is exceptional in bloom; large, pansy-like flowers open deep purple, progress to lavender and then finally white, showing all three colors on the plant; perfect for the shrub border or containers

### Ornamental Features

Magnificent Yesterday Today And Tomorrow is covered in stunning clusters of deep purple round flowers with lavender overtones and white eyes at the ends of the branches from mid spring to mid fall. Its glossy pointy leaves remain dark green in color with curious light green undersides throughout the year.

### Landscape Attributes

Magnificent Yesterday Today And Tomorrow is a multi-stemmed annual with an upright spreading habit of growth. Its medium texture blends into the garden, but can always be balanced by a couple of finer or coarser plants for an effective composition.

This is a relatively low maintenance plant, and should only be pruned after flowering to avoid removing any of the current season's flowers. It is a good choice for attracting bees and butterflies to your yard. It has no significant negative characteristics.

Magnificent Yesterday Today And Tomorrow is recommended for the following landscape applications;

- Accent
- Mass Planting
- General Garden Use
- Container Planting

### Planting & Growing

Magnificent Yesterday Today And Tomorrow will grow to be about 4 feet tall at maturity, with a spread of 4 feet. It has a low canopy with a typical clearance of 1 foot from the ground. Although it's not a true annual, this plant can be expected to behave as an annual in our climate if left outdoors over the winter, usually needing replacement the following year. As such, gardeners should take into consideration that it will perform differently than it would in its native habitat.

This plant does best in full sun to partial shade. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It may require supplemental watering during periods of drought or extended heat. It is particular about its soil conditions, with a strong preference for rich, acidic soils, and is able to handle environmental salt. It is somewhat tolerant of urban pollution. This species is not originally from North America, and parts of it are known to be toxic to humans and animals, so care should be exercised in planting it around children and pets.

Magnificent Yesterday Today And Tomorrow is a fine choice for the garden, but it is also a good selection for planting in outdoor pots and containers. With its upright habit of growth, it is best suited for use as a 'thriller' in the 'spiller-thriller-filler' container combination; plant it near the center of the pot, surrounded by smaller plants and those that spill over the edges. It is even sizeable enough that it can be grown alone in a suitable container. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
