Cadet Upright[™] Purple Verbena Verbena 'Balcadurp'

Height: 10 inches Spread: 14 inches Spacing: 10 inches Sunlight: O Hardiness Zone: (annual) Group/Class: Cadet Series

Description:

Known for its uniform habit, this upright verbena showcases beautiful violet flower clusters; a disease resistant and low maintenance plant that is ideal for patio containers and garden beds; attracts pollinators

Ornamental Features

Cadet Upright Purple Verbena features showy clusters of violet star-shaped flowers with white eyes at the ends of the stems from late spring to mid fall. Its tiny lobed leaves remain green in color throughout the season.

Landscape Attributes

Cadet Upright Purple Verbena is an herbaceous annual with an upright spreading habit of growth. Its medium texture blends into the garden, but can always be balanced by a couple of finer or coarser plants for an effective composition.

This is a relatively low maintenance plant, and should not require much pruning, except when necessary, such as to remove dieback. It is a good choice for attracting bees and butterflies to your yard. It has no significant negative characteristics.

Cadet Upright Purple Verbena is recommended for the following landscape applications;

- Mass Planting
- Border Edging
- General Garden Use
- Container Planting
- Hanging Baskets

Planting & Growing

Cadet Upright Purple Verbena will grow to be about 10 inches tall at maturity, with a spread of 14 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 10 inches apart. Its foliage tends to remain low and dense right to the ground. This fast-growing annual will normally live for one full growing season, needing replacement the following year.

This plant does best in full sun to partial shade. It does best in average to evenly moist conditions, but will not tolerate standing water. It may require supplemental watering during periods of drought or extended heat. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid. It can be propagated by cuttings; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Cadet Upright Purple Verbena is a fine choice for the garden, but it is also a good selection for planting in outdoor containers and hanging baskets. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a mass of flowers against which the larger thriller plants stand out. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
