

## Better Plants. Better Advice. Better Results.

**Krausa Parsley** Petroselinum crispum 'Krausa'

Height: 12 inches Spread: 10 inches Spacing: 10 inches

Sunlight: O

Hardiness Zone: (annual)

## **Description:**

Krausa Parsley Photo courtesy of NetPS Plant Finder

This fast growing variety produces aromatic, closely curled foliage that is deep green; when mature, it holds for a long time making harvesting easy; use in soups, salads or as a garnish; requires a well prepared fertilized soil and even moisture

## **Edible Qualities**

Krausa Parsley is an annual herb that is commonly grown for its edible qualities. The fragrant ferny compound dark green leaves are usually harvested from early summer to early fall. The leaves have a pleasant taste with a crisp texture and a light fragrance.

The leaves are most often used in the following ways:

- Eating When Cooked/Prepared
- Cooking
- Drying
- Seasoning
- Sauces

## Planting & Growing

Krausa Parsley will grow to be about 12 inches tall at maturity, with a spread of 10 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 10 inches apart. This fast-growing annual will normally live for one full growing season, needing replacement the following year.

Better Plants. Better Advice. Better Results.

This plant is typically grown in a designated herb garden. It does best in full sun to partial shade. It does best in average to evenly moist conditions, but will not tolerate standing water. It may require supplemental watering during periods of drought or extended heat. It is not particular as to soil pH, but grows best in rich soils. It is highly tolerant of urban pollution and will even thrive in inner city environments. This is a selected variety of a species not originally from North America.

Krausa Parsley is a good choice for the edible garden, but it is also well-suited for use in outdoor pots and containers. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a canvas of foliage against which the thriller plants stand out. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
