Sweetunia Bubblelou Petunia Petunia 'Sweetunia Bubblelou'

Height: 10 inches Spread: 18 inches Spacing: 15 inches Sunlight: O Hardiness Zone: (annual) Group/Class: Sweetunia Series **Description:**

A wonderful upright mounded series featuring brightly colored blooms in a wide array of colors; day length neutral with excellent weather tolerance; ideal for hanging baskets, containers and landscape applications; remove spent flowers

Ornamental Features

Sweetunia Bubblelou Petunia is draped in stunning pink trumpet-shaped flowers with red centers at the ends of the stems from mid spring to late summer. Its pointy leaves remain green in color throughout the season.

Landscape Attributes

Sweetunia Bubblelou Petunia is a dense herbaceous annual with a mounded form. Its medium texture blends into the garden, but can always be balanced by a couple of finer or coarser plants for an effective composition.

This plant will require occasional maintenance and upkeep. Trim off the flower heads after they fade and die to encourage more blooms late into the season. It is a good choice for attracting butterflies and hummingbirds to your yard, but is not particularly attractive to deer who tend to leave it alone in favor of tastier treats. It has no significant negative characteristics.

Sweetunia Bubblelou Petunia is recommended for the following landscape applications;

Moana Lane Garden Center & Corporate Office South Virginia St. Garden Center 1100 W. Moana Lane Reno, NV 89509 (775) 825-0600 (775) 825-0602 - Corporate Office

11301 S. Virginia Street Reno, NV 89511 (775) 853-1319

Pyramid Way Garden Center 3397 Pyramid Way Sparks, NV 89431 (775) 425-4300

- Hanging Baskets

Planting & Growing

Sweetunia Bubblelou Petunia will grow to be about 10 inches tall at maturity, with a spread of 18 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 15 inches apart. Its foliage tends to remain low and dense right to the ground. This fast-growing annual will normally live for one full growing season, needing replacement the following year.

This plant should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It may require supplemental watering during periods of drought or extended heat. This plant should not require much in the way of fertilizing once established, although it may appreciate a shot of general-purpose fertilizer from time to time early in the growing season. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid. It can be propagated by cuttings; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Sweetunia Bubblelou Petunia is a fine choice for the garden, but it is also a good selection for planting in outdoor containers and hanging baskets. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a mass of flowers against which the thriller plants stand out. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
